Preservation and promotion of endangered languages of Pakistan is one of the program areas of PDI. PDI has been working for the preservation and promotion of threatened and ignored languages of Balochistan and Sindh provinces of Pakistan.

The importance of language is essential to every aspect and interaction in our everyday lives. We use language to inform the people around us of what we feel, what we desire, and question/understand the world around us. We communicate effectively with our words, gestures, and tone of voice in a multitude of situation. Being able to communicate with each other, form bonds, teamwork, and it's what separates humans from other animal species.

PDI has published a Brahui Qaida to promote the language. This Qaida is helpful for those as well who wants to be aware about very basic vocal terms, and understanding them at community level.
