

Title: Civil Society Situation Reports on Floods 2011-2012 Pakistan

Language: English
Prepared by: PDI Documentation Wing
Publication Year: 2012
Theme: Flood Advocacy

This report is one of the key efforts of PDI and Peoples Accountability Commission on Floods (PACF). This is a collection of research based situation reports prepared by PACF and PDI experts and disseminated through print and electronic media.

The overall objective of published collection of reports is to identify and investigate the gaps, lacks of the policy, law, implementation and interventions during the rescue, relief and early recovery phases for communities hit by disaster in Sindh particularly eight highly hit districts including Badin, Mirpurkhas, Sanghar, Umarkot, Shaheed Benazir Abad, Tharparkar, Tando Allah Yar and Tando Mohammad Khan. Law makers, civil society, media, NGO's, INGO's, Scholars, government departments and humanitarian actors were targeted for the information.

The focus of the reports also included to review of the government of all layers and concerned departments including districts, provincial and national level. The reports are based on research and evidences, to advocate the issues.
