

Title: ڳوٺاڻي سطح تي قدرتي آفتن جي انتظام ڪاري
Language: Sindhi
Published By: PDI Documentation Wing
Publication Year: 2008
Theme: DRM

The aim of this document is to provide a series of practical, simple and relevant material that can be developed and adapted for use at specific local levels. The publication of this Framework on Community-based Disaster Risk Management demonstrates the level of initiatives and adoption of methods by the community to play a vital role to minimize and manage the disasters.

The Publication includes modules for learners to learn CBDRM and practical experiences which enables them to transfer knowledge to action and directly manage disasters. The Framework is designed to scale-up the capacity of people.
