

Title: **Oil & Gas Exploration & Production in Pakistan**

Language: English

Prepared by: PDI Documentation Wing

Publication Year: 2008

Theme: Oil and Gas

Oil and Gas exploration and production sectors have engaged as one of the key sectors in Pakistan. More than three dozen national and multinational oil and gas companies are engaged in exploration and production in Pakistan. There are serious complains of violation of environment and other related laws by those companies. The publication identifies the gaps in the legal framework regarding extraction companies as well as implementation of mechanisms suggesting improvements as well.

The publication is part of PDI Community Awareness and Networking Campaign on Corporate Social Responsibility (CSR) launched with the support of Oxfam GB. The publication discusses the background and process of oil and gas exploration and production in Pakistan.

The publication reviews the policies, laws and rules covering the issues of community development and environmental protection during the different phases of oil and gas exploration and production.
